Backend: Node.js, Express, Sequelize

Databases: PostgreSQL, SQL

Tools: Git, Postman, REST APIs, Agile

Other: Clean Code, Responsive UI, System Optimization

Professional Experience

Full Stack Developer – New Tech Solutions LTDA

May 2023 – Present | Brazil/Remote

New Tech develops ERP platforms for medium and large companies with a strong focus on business processes and enterprise-grade solutions.

Key Contributions:

- Developed full-stack web applications using **Angular**, **Node.js**, and **SQL**.
- Built scalable backend services, including data models, business logic, and system integrations using **Sequelize** and REST APIs.
- Designed and implemented intuitive user interfaces using **PO-UI**, improving usability and reducing user errors.

- Enhanced system performance through API optimization, refactoring, and improved database query handling.
- Collaborated with cross-functional teams to deliver stable, maintainable applications aligned with business requirements.
- Supported production environments by troubleshooting issues and implementing improvements.

Front-End Developer – DWC Consult (TOTVS Partner)

Mar 2023 – Jul 2024 | Brazil

DWC Consult is an accredited TOTVS partner specializing in ERP solutions for companies of all sizes.

Key Contributions:

- Developed responsive and visually consistent interfaces using **Angular** and **PO-UI**.
- Integrated front-end applications with **TOTVS servers**, ensuring data accuracy and system stability.
- Improved UI workflows and interaction patterns, increasing user efficiency and satisfaction.
- Participated in the development of high-demand ERP modules used daily by medium and large organizations.
- Ensured code quality through best practices, component reuse, and performance-focused development.
